NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

After what seemed like a long wait, Richard Nixon is now our president following the big inaugural ceremonies Monday. We join most Americans in wishing him our sincere best wishes as he undertakes the most demanding job in the world.

At least now he no longer needs to be referred to by that awkward manner of President-elect. This always seemed so unnecessary. There have been many that are advocating that the time between the election of a president and his inaugural be cut down and we would join in this effort.

It seems to be somewhat of a waste of time and effort for Congress to go into session some three weeks before the new president takes office. Why the outgoing President should present the budget and deliver the State of the Union message we fail to understand. All of this should come under the duties of the new administration and not the old. This is especially true this year when we not only have a new president but one of a different party.

It seems that things are happening too fast in the world today for us to spend this long in changing from one administration to another. To the credit of both outgoing President Johnson and the incoming President we have had the smoothest change-over in the history of this nation. But, at the same time, we still have the situation where we present to the world an image of having two different leaders for a period of over two months.

This serves no useful purpose and only leads to confusion both at home and abroad.

The advent of our modern communication systems and world wide transportation networks have created many problems in the mechanics of our governmental system with this being only one of them.

We were shocked to find out that under our taxing system Congress has to give the president a \$100,000 raise in order for him to keep \$26,000. Since the other \$74,000 just comes out of the U.S. Treasury and back into it, this seems somewhat akin to Indiangiving. We don't know any answer to it but it sure is misleading to say the least.

We were quite pleased to find out that the Institute of Texas Cultures, the surprise hit of the HemisFair, will be reopened Sunday, March 2, on Texas Independence Day. We have no idea when we will get the chance to go back to San Antonio but when we do, we hope that we will have time to schedule a few hours to visit this fascinating museum of Texas history.

Most of the exhibits visitors saw during the fair will still be there, plus some new attractions.

Due, at least partly, to the efforts of Hamlin's Chief of Police Bryan Wasson, Hardin-Simmons University will offer a degree program in Police Administration under the newly created Department of Law Enforcement. The program will start this fall and will be a cooperative effort among the three Abilene Colleges.

Tentative plans call for Chief Wasson to teach one or more subjects.

This is an outgrowth of the new emphasis being placed on better trained law enforcement officers across the nation. At the present time only eight colleges in Texas offer a two year associate of Arts degree in Police Science and no school offers a four year course until now.

Dr. J. C. McGraw will head the new department.

Pipers Make Comeback, Down Coleman, 73-59

The Red Pipers came up with a big win here Friday night as they knocked off the previously unbeaten Coleman Bluecats, 73-59. The win gave the Pipers a 4-3 record at the mid-way mark of district play.

The Pipers hit the court with a hot hand as they jumped out to 16-2 lead mid-way in the first period and held a lead throughout the game. Hamlin was ahead 20-7 at the end of the first period and 36-27 at half.

The Pipers doubled the Bluecats output in the third quarter, 18-9, to lead 54-36 going

into the final period.

Robert Bolden led the Pipers with 22 points, followed by Charlie Shira with 16 and Stick Newland with 14.

The Piperettes took an easy 53-34 victory over Coleman to bring their district record up to 3-2. Mary Cork led the scoring with 22 points.

Police Department Adds Radar Unit In Fight for Traffic Safety

The Hamlin City Council voted Monday night to purchase a Radar Speed Measuring device to be used by the local Police Department. Chief Bryan Wasson said that the unit would not be used as a source of revenue but would be used only for traffic safety purposes.

He said that the radar unit's use would be concentrated around the school zones in peak traffic hours. Its use, both as to location and time of day, will be alternated.

In commenting on the unit, Chief Wasson said that radar has been used by law enforcement agencies for many years as a means to clock speeders and that it is 98 percent accurate with all error in favor of the motorist. He added that the further the unit is from the road the slower the speed of the clocked vehicle will register. The drain on the battery of the patrol car will also tend to indicate slower speeds.

Because of the nature of the radar used in checking speed of moving vehicles

jamming methods will not affect the unit. Chief Wasson said that the only thing that will jam the units is a transmitter on the exact frequency.

He also said that radar detecting devices are also useless because by the time you are within range of the signal it has already clocked your speed. Most detecting units are also not likely to be on the correct frequency to detect any given brand of radar.

FROM THE FILES . . .

FORTY-FIVE YEARS AGO (January 18, 1924)

Two good road elections were ordered for portions of Jones County Monday by the Commissioners Court.

The first election ordered is the petition of Anson vicinity for a road east and west through the county. The other election was a result of a petition from the north part of the county calling for the improvement of 150 miles of roads.

The Winter Term of the District Court of Jones County is now in session at Anson. Since Jan. 7, the Court has been grinding continuously and much business has been transacted. The first week was devoted to nonjury, civil matters, during the week many cases were disposed of by the Court. Thirteen divorces were granted during the week.

Boyd Chapel played ball with Wise Chapel last Friday. B. C. boys won but the girls lost. We will admit that we don't have much of a girls team.

You all will have to agree with me that the game Neinda won off of us showed that it was the first game they ever won--from the way they took it. I am very sorry to say that it made them go wild. But anyway we will just have to look over such.

Hitson went to Plasterco and played basketball Friday. Hitson won both games.

A prettily appointed party was given Friday afternoon at the home of Mrs. W. C. Russell, when she entertained with four tables of bridge. The hostess was assisted by Mrs. G. H. Tumlin, who presented dainty score cards, and Mrs. H. S. Scales who assisted guests in doffing their wraps.

Mrs. Mosley was hostess to the Blue Bird Bridge Club Jan. 9th. Mrs. John Yates won high score.

TWENTY YEARS AGO (January 21, 1949)

The Hamlin Garden Club met in the home of Mrs. M. T. York last Friday afternoon.

The opening prayer was given by Mrs. Harold Bonner, following which Mrs. Ernest Jenkins and Mrs. R. D. Moore gave talks. Mrs. Carl Young also read a paper.

Hamlin Lions club members, and their ladies, feasted at the Ladies Night program given by the club last Friday evening in the grade school cafeteria while a group of entertainers from McMurry College entertained. They were accompanied to Hamlin by Mr. and Mrs. Gordon Bennett.

Lee Cowan and Brad Rowland of Hamlin, members of the Texas Conference championship football team of the McMurry Indians, were among the group of 20 players to receive watches recently from McMurry students. The watches were engraved "Texas Conference Champions."

Eddie Jay and Joe Culbertson attended a meeting in Stamford last week at which plans for a county stock show were discussed.

Rev. and Mrs. A. R. Posey and Mrs. Tate May attended the Jones County Baptist Workers conference in Stamford Tuesday.

TEN YEARS AGO (January 22, 1959)

The thousands of acres of small grain in the Hamlin territory got a semblance of relief Tuesday from the drouth that has persisted for several weeks when about one and a quarter of an inch of snow fell over the area.

Members of the HHS Pied Piper Band are preparing for try-outs for the district band, to be held at Rochester, according to Mac Fullerton, director.

A record crowd is being prepared for the benefit pancake supper being staged next Thursday evening by the Hamlin Lions Club at the High School Cafeteria, according to Acting President B. V. Newberry.

The Lions Club will use their portion of the proceeds for work among youngsters with eye deficiencies.

Hamlin community's March of Dimes is getting underway this week in earnest, and funds are already coming in, reports Ed Croan.

Rev. Jim Pickens, chaplain of McMurry College was the speaker for the program at the Jan. dinner meeting of the Hamlin Business and Professional Women's Club Tuesday evening at the Primary School cafeteria. He spoke on "International Relations."

Likeness

The artist is capturing the physical likeness of this lovely girl on her paper. The likeness is amazing. But her inward beauty, her wonderful Christian heart and soul, can only be captured fully on God's canvas. The Bible says that "Man looketh on the outward appearance but God looketh on the heart."

How would God's painting picture you and me?

One good way to improve your heart condition is to attend church and hear God's word proclaimed from the pulpit. Learn God's plan for your life by listening to His word. We invite you to attend the church of your choice this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Neinda Philosopher Says Scientists Need A Different Argument for More Space Trips

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes a financial view of the moon trip in his letter this week.

Dear editor:

I don't like to be considered as being against progress, as a matter of fact I've always wanted a tractor with disappearing headlights and a car that'd run for ten years on one small block of atomic energy, with tires that grew thicker instead of thinner and a hood that'd re-shape itself every year to keep up with the styles, so don't get me wrong when I question a space scientist's peculiar argument in favor of exploring the moon.

According to his argument which I read in a newspaper last night, going to the moon is exactly as important as Columbus' discovery of America, and the people who are questioning the 24 billion dollars it took to get there are the same type of people who questioned the few thousand dollars it took to get Columbus across the ocean and back.

Understand, I think we ought to keep on exploring space and I think the three

astronauts who made it to the moon and back are genuine heroes, but you reckon the human race will get the same return on the moon trip as it did on the Columbus trip?

Twenty thousand dollars to open up America was a good investment, but 24 million to open up the moon? Have you ever seen the pictures of that air-less ball of rock? Or, as one of the astronauts put it, that "big bunch of nothing"? The moon has spacious skies all right but it's short on fruited plains.

I'm afraid the space scientists are using the wrong arguments. They're going to have to go beyond the moon and find something better before they're up on the same financial level as Columbus.

If Queen Isabella had taken a mortgage on everything Columbus discovered and all his heirs and assigns, do you have any idea what she'd be worth today?

She failed to do it, though, and Washington wound up with the mortgage.

Yours faithfully,
J. A.
